Forecast for Sunday 04 Jul 2021

Weather: Mostly cloudy during the early hours with the increasing risk of a shower as we head towards dawn. Gradually the cloud lifting and breaking through the morning, but a further risk of showers. Sunny spells and showers for the afternoon, some heavy with the risk of thunder though showers easing again through the evening. Humid.

Chance of cloud free mountain/hill tops above 800m: 30%, but becoming 70% by the afternoon.

Visibility: Often moderate to poor during the early hours with cloud bases down to 300m at times. Cloud bases lifting to largely above the summits through the morning, but visibility still poor in any heavy showers that pass over with cloud bases down to 500m at times.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View
Showers throughout the day will make paths and slopes slippery, thus extra care should be taken when out walking and waterproofs should be worn.

Forecast for Monday 05 Jul 2021
Weather: A few showers during the morning but mostly dry in the afternoon. Cloud increasing through the late afternoon and rain arriving by late evening.

Maximum wind: Southerly 15 mph gusting 20-25mph.

Chance of cloud free mountain/hill tops above 800m: 80-90%, lowering to 60% by late afternoon and 30% late evening.

Visibility: Generally very good, with cloud bases down to 500m in any passing showers. Becoming moderate by late evening, with widespread cloud bases of 500m, lowering to 300m at times.

Temperature: **Valleys:** Plus 8 Celsius, rising to plus 19 Celsius.
At 800m: Plus 5 Celsius rising to plus 9 Celsius.
Freezing level: Above the summits.
